

Honeywell Thermostats UAE

United Arab Emirates (UAE) is a country located in the Middle East bordering the Gulf of Oman and the Persian Gulf. Neighboring countries include Oman and Saudi Arabia. It has a strategic location along southern approaches to the Strait of Hormuz, a transit point for world crude oil. Honeywell is a global Fortune 100 company with technologies that help everything from aircraft, buildings, manufacturing plants, supply chains, and workers become more connected to make our world smarter, safer, and more sustainable.

Abu Saeed Trading Company LLC is one of the most reputed distributors of a wide range of components, equipments, spares and tools of Honeywell, UAE. Our reputation is not without reason. We deal in only the best brands from world's well known companies who manufacture state-of-the-art products.

Let us read on the about a thermostat a small device but it serves much extensive use to save energy.

Thermostat is a device that monitors and automatically responds to changes in temperature and activities switches controlling devices such as furnaces or air conditioner.

HOW THERMOSTATS WORKS

All thermostats perform the same essential function, but the way they do it differs. Different ages, models, and types of thermostats use different means of measuring temperature and communicating with the HVAC system. Every major thermostat brand uses a different propriety process, and their processes inevitably change over time with the introduction of new ideas and technology. What that being said, basic principles of thermostat design are common across all brands and styles. Here are four of the most common types of thermostat

- **MECHANICAL**
- **GAS**
- **ELECTRICAL**
- **DIGITAL**
